

## Algebra II, APEX

<b>Academic Standards Alignment Rubric Criteria</b>	<b>Score</b>
A2.N.1 Extend the understanding of number and operations to include complex numbers, matrices, radical expressions, and expressions written with rational exponents.	3 of 3
A2.A.1 Represent and solve mathematical and real-world problems using nonlinear equations and systems of linear equations; interpret the solutions in the original context	3 of 3
A2.A.2 Represent and analyze mathematical situations and structures using algebraic symbols using various strategies to write equivalent forms of expressions.	3 of 3
A2.F.1 Understand functions as descriptions of covariation (how related quantities vary together).	3 of 3
A2.F.2 Analyze functions through algebraic combinations, compositions, and inverses, if they exist.	3 of 3
A2.D.1 Display, describe, and compare data. For linear and nonlinear relationships, make predictions and assess the reliability of those predictions.	3 of 3
A2.D.2 Analyze statistical thinking to draw inferences, make predictions, and justify conclusions.	3 of 3
	<b>3.00</b>
